Remarkable Auroral Display. An extraordinary display of the aurora bo-realis which appeared on the twentieth of September last year, at Cape Onman, where Prof. Nordenskjold was detained, is thus described by Lieutenant Howgaard, in one of his letters to the Dagblad: "About ten o'clock at night a flame began to ascend from the northern horizon, its center being due which slowly approached the zenith, losing gradually something of their intensity, which, however, they recovered when they disappeared toward the southern horizon. The lames were perfectly white, and the heavens were soon covered with flaming arches, which presented a splendid appearance against the dark sky, in which the stars shone brilliantly. Toward midnight the phe-nomena became more disturbed. In a brilliantly. large, broad band which passed through the zenith, the light, of all the hues of the rain-bow, waved forward and backward, without its being possible to say whether the light waves came from east or west, but toward the east the flame was especially flickering, and here a flaming torch rose above the horizon, from which immense flames of light issued and again returned. The band suddenly beame weaker, while the torch, flaming wildly, became larger, and from the zenith a number of light yellow rays shot out in all direc-tions. This lasted about a quarter of an nour, when the former arches reappeared radually disappearing toward the North ole. No sound was heard while this startling phenomenon was observed."

JESSE F. BROWN & CO., Agents, Cotton Buyers And General Commission Merchants, No. 216 Front street,

100 UNION STREET. John B. Fergusson, Assistant.

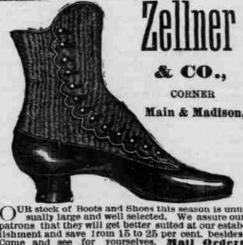

THE principal of this school desires to inform the public that he will remove Wednesday. November 26th, from his present place of teaching at the Presbyterian Hom, on Alabama street, to 100 Union street. This location is decidedly the most central that any educational institution enjoys in town, being convenient to Main street and the street cars. The principal intends that his school shall as what it pretends to be, a Thorough school for boys. Thankful for the already cordial renewal of the patronage of his friends of last year, he solicits the general indyrestion of the Memphis public. Prof. Tyler is a B. A. and M. A. of that great southern institution of learing, the University of Virginia, and has had experience both as a professor in William and Mary College, Virginia, and as a teacher in common schools. He has lately secured the valuable assistance of Mr. John B. Fergusson, a graduate of the Southwestern University of Clarksville, Tenn.
